

U. S. PROTECTION IN TWO FORMS Government Insurance and Compensation Are Entirely Apart SOLDIERS MAY GET BOTH Dependency Necessary in One, With Other Available to Any Beneficiary

Many military and naval men, and families of these men, have confused "compensation" and "government insurance." These two forms of financial protection offered by the United States government are entirely separate and independent of each other.

The United States offers its fighting forces the protection of government insurance. This insurance is payable regardless of any dependency, and a beneficiary is entitled to receive the insurance without proving any dependency upon the insured. Claims for death or total permanent disability will be allowed regardless of whether such claims arise in line of duty, by suicide or own misconduct of the insured.

It has been stated that insurance is to take the place of pensions. This is not correct. It was never intended that insurance was to take the place of pensions, and they should not be confused. "Compensation," however, another form of government protection, which is separate and apart from insurance, does take the place of pensions provided under the old pension system, and is payable only to a wife, child, dependent mother or father of a soldier or sailor who is disabled or dies as the result of injury suffered or disease contracted in the line of duty while employed in the active service, provided the disability does not result from the man's own willful misconduct. No premium is paid for the rights to obtain compensation.

Compensation may be payable in addition to insurance, but a mother or father must prove actual dependency in order to receive monthly payments of compensation. Compensation may be paid a widow until remarriage, and to a child until the age of eighteen or until marriage.

If a man becomes totally and permanently disabled, the government makes two separate and distinct payments. He will receive an award under "compensation," and in addition to this will receive an income of \$5.75 per month from his insurance for each \$1000 of insurance he carries. If the disability is only partial, no insurance is payable, but if such partial disability is incurred in line of duty, compensation is payable. The monthly compensation paid in this case shall be a percentage of the compensation that would be payable for his total disability equal to the degree of no compensation shall be payable for a reduction in earning capacity, rated at less than one year from date of separation from the service. No compensation is payable for disability unless claim is filed within five years after the date of separation from the service.

PENROSE SPIKES HARMONY TALK

Declares Against Charter Bill Amendment by Opponents

SILENT ON MAYORALTY

Senator's Statement Regarded as Indicating Issue of Next Campaign

Rumors of a harmony deal between Senator Penrose and the Varo on charter revision and the majority have been blasted by Senator Penrose.

In a formal statement on the proposed new charter for Philadelphia, Senator Penrose said:

"The reform legislation for Philadelphia ought to be passed promptly by the Legislature when it is perfected. No amendments should be accepted thereto, except those urged by friends of the measure. It is ridiculous to talk of compromise or political deals in this connection."

Senator Penrose was equally emphatic concerning the majority situation. A successor to Mayor Smith is to be elected in the fall.

"It is too early to discuss the question of candidates for the office of Mayor," he said. "The first task to be performed is to pass the legislation at Harrisburg."

"I am certainly not in favor of any compromise or deal on the majority side of the political elements who have brought the city to its present deplorable condition."

Regarded as Opening Campaign The statement was regarded as the opening gun of the majority campaign, with "redeem Philadelphia" as the battle slogan of the anti-Varo forces.

The Senator said in part: "The Varo is ridiculous to talk of compromise or political deals in this connection. The legislation stands on its merits as an effort to rescue Philadelphia from the abuses and misfeasances and general demoralization in which the municipality finds itself."

The provisions of the bill and all amendments thereto should have the single object in view of reaching this result.

The details of the reform measures cannot be made subjects of political manipulation. There is a patriotic duty to be performed, without compromise or without political trading.

The best candidate for Mayor of Philadelphia ought to make his appeal to the people on the issue of the redemption of Philadelphia.

Another hearing on the charter revision bill now with the Senate Committee on Municipal Affairs will be held within a week or ten days, Senator Varo has indicated.

The hearing will be exclusively for opponents of the measures.

COAL PROBE CERTAIN Governor Says Here He Blames Dealers for High Prices

Governor Sproul announced in this city there would be an investigation of the cost of coal in Pennsylvania. For two days, he said, he had been working almost constantly on the question and was convinced that an inquiry was necessary.

"It will not necessarily be an investigation by the Legislature," he said. "It is a most difficult situation and I don't want to disturb the industrial conditions of the state. I do not want to act in any way that will affect the wages of the miners. But I am convinced that the prices are too high and the solution of the problem, I think, lies with the dealers."

CITY AND SUBURBS POLICE UNIT, PLAN

Bill Adds Adjacent Counties to Metropolitan Area

HAS SPROUL'S BACKING

Representative Heffernan Will Introduce Measure to Legislature

A bill to create a metropolitan police system for Philadelphia and the adjoining counties is said to be in course of preparation, with the consent of Governor Sproul.

It is understood that the bill will apply to the adjoining counties of Delaware, Montgomery, Bucks and Chester, with the headquarters of the proposed new force in Philadelphia and branch headquarters in each of the adjoining counties.

Dr. James T. Heffernan, one of the representatives in the Seventeenth Legislative district, West Philadelphia, may be selected to sponsor the measure in the House. Doctor Heffernan introduced the

police bill which was defeated in the 1917 Legislature.

Governor Sproul is known to favor the metropolitan police idea. He advocated such a plan at the charter revision dinner last December. The Governor pointed out that a unified police system would aid in preserving peace in the city and suburbs.

As several counties would come under the administration of the proposed metropolitan police system it is expected that the appointment of the directing head would be placed in the hands of the Governor.

Governor Sproul, it is understood, would appoint as commissioner a man of the type of John C. Grooms, who organized and directed the State constabulary until called to the colors to assist in organizing the military police.

Under the direction of Colonel Grooms the state police were kept free of partisan politics. Before the bill is submitted to the Legislature it is expected to be submitted to Attorney General Schaffer for examination.

Pool Advertising

Advertising by associations is a development of recent years.

Suppose you were a grower of oranges, raisins, peaches or apples on the Pacific coast—what could you do individually to advertise your own product?

Or suppose you raised cranberries or owned a saw-mill or tanned leather or manufactured magnesia or quarried granite, you could advertise nationally only through your association.

Now the success of association advertising depends first of all on the creation of a strong governing power—a "boss."
